"We believe Khalid Shafar's signature textile is very much rooted in our culture as Emirati fashion designers, which is something we aim to explore further in our collections. We always question culture and modernity, ethnicity and contemporariness. The story of the seven sands of the emirates along with the chosen colour palette worked very well in this specific collaboration. The multi-coloured textile along with the deconstructed pattern of Burj Khalifa gave us space and area to explore pattern matching and manipulation in this signature look of our brand."

Sitting on 2:4 seat by Khalid Shafar the model wears a look designed with screen printed cotton also by **Khalid Shafar**, Dhs 520/m. Shoes, **Santoni**
